

Community Care Hub Partnership.

Family Impact Network is partnering with Better Health Together (BHT) to connect child-welfare involved families with **one-stop, non-time limited access to services**. The BHT Community Care Hub is a system that connects people to lots of different kinds of assistance. **We partner with organizations who connect folks to meet basic needs:**

Clinics & Doctors

Food Assistance

Housing & Shelter

Transportation

Family Support

Support for Substance
Use Disorder

Education &
Employment

Connection &
Community

Insurance &
Benefits help

The referral process:

Referrals to the Community Care Hub are best suited to families with a case about to close and families deemed low-risk. The process starts when a social worker fills out a short referral form. Family Impact Network specialists will direct your referral to BHT. They will contact families **within 2 business days**. This process is secure and confidential.

BHT connects clients with organizations most aligned with their lived experiences, cultural, and linguistic backgrounds. This builds deeper levels of trust, which is critical for effective engagement and support.

Service Area

The Community
Care Hub covers 6
counties and 3
reservations

Connect families with this **free** service
in 2-min. with this digital PDF form:
